Vikki spoke at Canvas8's International Women's Day event and **I would highly recommend her** to other brands and agencies. She presented in a very relaxed and approachable manner, providing insights and presented research to back up her findings. I'd recommend Vikki as a speaker on the issue of the gender gap, women empowerment and the topic of time-hacking. Thanks again for a great presentation!

I hired Vikki to speak to my Women's Leadership Group. From all over the US, these women hold positions in various industries and different levels of responsibility. The one thing they all hold in common – is their stress over time scarcity, their desire to over-manage their time, and their addiction to 'to-do' lists. Vikki brought a mind-blowing perspective to their assumptions about what has to be done, and by when. Her teaching challenges the status quo in the best of ways: to creatively be more effective, and not just continue with outdated models of productivity. Her lessons will stay with us for a long time to come! **I highly recommend Vikki - she's a great presenter, coach, facilitator, and thought leader!**

Vikki Louise

CEO & Founder of Time Hackers Ltd

Vikki is a Time & Productivity expert, working with individuals and teams globally to improve effectiveness and efficiency while eliminating time wasted.

As the founder and CEO of Time Hackers, Ltd, she and her global team have supported 100+ multinational clients to achieve faster success. Her work goes deeper than time management tactics and solves for why we don't just follow a calendar, why we keep putting off certain tasks and why we get stuck and things take much longer than they need to.

Her previous experience involved working in finance and tech across multiple continents, she has a deep understanding of culture and the role it plays with our time and effectiveness.

She has tools to support anxiety, procrastination, time wasting and performance, working with early careers, leaders, ERGs and new hires. She's an expert to talk on topics such as time, productivity, effective working, peak performance, goal strategy and prioritisation.

Vikki has lived and worked on four continents, is a mum, and spent most of her life thinking "being disorganized" and "bad with her time" was a personality trait... Until she changed it.

At Prowess Project, we LOVED Vikki's session on Time Hacking. There were so many great reminders and different perspectives packed into a short time. It instantly calmed me down. After the event we all agreed that you are the 4-hour work week but written specifically for women. I **highly recommend** this workshop, thank you again.

~Ashley Connell, CEO and Founder Prowess Project
